

NANO Happening is a one-day programme. The morning session is focussed on providing balanced and up-to-date information about nanotechnologies, while the afternoon session continues with role-play activities relevant to ELSA concerns.

Time	The activity	Equipment and instructions
8:30–8:45	Welcome, preview of day	
8:45–9:30	Video introducing the nanoscale, nano materials and nanotechnologies	Materials and nanotechnology + instructional kit
9:30–10:00	Raising questions in order to motivate students about NT	Boards about NT
10:00–10:15	Recess/snack	
10:15–11:15	Temporary exhibition including computer games and activities	PCs (also activities available on NT kit) as well as, board games
11:15–12:00	1st Workshop: What is NT?	Board games (downloaded from NANOYOU page)
12:00–13:00	Lunch	
13:00–13:10	Introduction to afternoon's program	Cards and teacher instructions
13:10–15:30	2nd Workshop: discussing social implications through role-play	
15:30–16:15	NANO-Hyde Park, with speakers' corners: discussions/reactions to reports; conclusions
