

[Science in School](#) is a science education journal that aims to promote inspiring science teaching by encouraging communication between teachers, scientists, and everyone else involved in European science education. It was originally supported by [Euro](#)  
[pean Commission](#)  
and is now published and funded by [EIROforum](#).

In this article, Matthias Mallmann from [NanoBioNet eV](#) explains what nanotechnology is and suggests some experiments that can be done in the classroom.
